FRONT END DEVELOPER

IT Training Nepal

- Spearheaded the development of responsive and visually appealing user interfaces for various web applications, ensuring seamless user experiences across devices.
- Collaborated closely with the design and backend teams to translate design mockups and specifications into interactive, functional web pages.
- Successfully implemented and maintained front-end codebase using modern web technologies such as HTML5, CSS3, and JavaScript.
- Actively participated in code reviews, providing constructive feedback to peers and ensuring code quality and best practices.
- Utilized responsive design principles to create user interfaces that adapt seamlessly to various screen sizes and resolutions.
